I saw the world's worst bicyclists on nantucket
get on the bike path
move it sweetie
no light no sense
stop texting
why are you wearing headphones?
you're going the wrong way
why are you wearing all black?
do you know how to signal?
no helmet
move your seat higher
move it
that stop sign is for you
we can't read your mind
S. Pixelink 21
At least you go faster than most of the cars
